TECHNICAL SKILLS

Languages

JavaScript · Python · Java · C

Frontend

HTML5 · CSS3 · Responsive Design · UI/UX

Backend

Java EE · Server-side Logic · REST APIs

Database

SQL · DB System Principles · Data Modelling

CS Theory

Algorithms · Data Structures · Discrete Math · OS · Linear Algebra

AI / Data

Machine Learning · Big Data · Probability & Statistics

DevOps/Tools

Git · GitHub · WordPress · Vercel · Linux

Mobile

Android / Mobile App Development

LANGUAGES

Arabic Native

French Fluent

English Professional

Chinese Intermediate · HSK3

SOFT SKILLS

- › Leadership & Team Building
- › Client Communication
- › Project Management
- › Problem Solving
- › Mentoring & Teaching

Software Engineering Student

Full-Stack · Database · Web Developer · Backend Engineer

PROFESSIONAL SUMMARY

Advanced Software Engineering student (3rd year, China West Normal University, graduating 2027) with **4+ years of full-stack development experience** delivering production web applications for real paying clients. Proficient across the full software stack: frontend (HTML5, CSS3, JavaScript), backend systems (Java EE, Python), **database design & administration** (SQL, Database System Principles), and deep CS theory (Data Structures & Algorithms, Operating Systems, Machine Learning, Discrete Mathematics). Founder of a 50-member university Software Engineering Club. Multilingual: Arabic, French, English, Chinese. Actively seeking an internship in **China or France**.

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer

Jan 2021 – Present

Remote · Self-Employed

- Designed and delivered 10+ production websites and web apps using HTML5, CSS3, JavaScript, and WordPress
- Managed full project lifecycle independently: requirements, architecture, coding, testing, deployment
- Applied SEO best practices and performance optimization — improved load times and search rankings for clients
- Integrated APIs, CMS platforms, and e-commerce features into client projects
- Maintained long-term client relationships with iterative delivery and clear communication

Founder & President — Software Engineering Club

May 2023 – Jan 2025

China West Normal University

- Founded the university's first SE Club from scratch — grew to 50+ active members within first year
- Designed and delivered workshops on web development, algorithms, and software engineering principles
- Led agile-style student project teams with sprint planning, code reviews, and retrospectives
- Mentored junior students in programming, debugging, and real-world project development
- Organized hackathons and tech events that established a lasting tech culture on campus

EDUCATION

B.Eng — Computer Software Engineering

Sep 2023 – Jul 2027

China West Normal University · Current 3rd Year Student

B.Sc — Computer Science (Transferred after Year 1)

China Jiliang University · Strong CS fundamentals foundation

RELEVANT COURSEWORK (B.Eng Software Engineering)

Programming	Java OOP · Java Web Dev · Java EE Enterprise Apps · Java EE Hands-on Training · C Programming · Python · Web Front-end Design · Mobile App Development · Embedded Systems
Database & Data	Database System Principle · Data Structure · Big Data Foundation
CS Theory	Discrete Mathematics · Linear Algebra & Probability Statistics · Calculus · Computer Operating Systems
AI & Advanced	Machine Learning · Guidance on Innovation & Entrepreneurship
Practical Trng	Web Front-end Skills Training · Java Web App Skills Training · Java Programming Skills Training

KEY ACHIEVEMENTS

- **Club Founder:** Built university's first Software Engineering Club — 0 to 50+ members in <1 year
- **Real-World Dev:** 10+ production client websites delivered solo as a freelancer since age 17
- **Academic Depth:** Completed Machine Learning, Big Data, Java EE, Databases & OS concurrently
- **Full Ownership:** Designed, built & deployed personal portfolio (hassanoubihiweb.vercel.app) end-to-end
- **Multilingual:** Arabic (native) · French (fluent) · English (professional) · Chinese (HSK3)
